DETAILED ACTION

Claims 1-6 and 10-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant's claims include a conditions-designating processing unit. The examiner finds this unit and its functions to be vague and infinite. The unit is pictures in FIG. 6 . the application states that FIG. 6 shows one example of a conditions- designating screen . Here a the unit diplays a box for selecting a method for molding the resin and a box for selecting the resin type and an ability to select the type of product to be manufactures. Moreover, it includes a box for designating the desired cost. In addition, it is said to include a box for selecting stipulations and legal restrictions. It is not clear from this description what the metes and bounds are of this unit.

Also, in claim 1, the information to be stored in the customer information database is vague and indefinite.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6 and 10-19 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a manufacturing/cost/legal conditions processing unit, it does not reasonably provide enablement for conditions outside of the manufacturing arena, (e.g., (the claims can read in a server for picking the color of furniture, for a car, etc. which include conditions outside the scope of the present invention. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims.

Claim Rejections - 35 USC § 103

The rejections under this paragraph have been withdrawn.

Claims would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
